

Catalogue: **Park & Playground Equipments**

Category:

Code: **PE24006**

Description:

The Pump Truck Stellar polyethylene course is ideal for mountain bikes, BMX, scooters, rollerblades, skateboards and more. Its modular design allows for easy assembly and easy customization by adapting to different spaces and terrains, whether it is an enclosed place, a park, a school playground or a private courtyard. The minimal impact and maximum modular flexibility of our Pump Trucks allow you to create different routes based on the needs of each individual dedicated space ensuring excellent resistance to atmospheric agents and light.

Dimensions: 19.6 x 11.6 m
