

Catalogue: **Furniture for Nursery and
Preschool**

Category:

Code: **SZ01003**

Description:

Radiator cover made with a front panel in multilayer with scratch-resistant finish plated on 2 sides, worked through holes that allow heat to pass through the structure. The panel thus guarantees the safety of children with respect to heat sources, without forgetting design and originality. The holes can then be used as a base in which multi-purpose pegs are inserted, to make these elements, real walls equipped. It is possible to realize this element according to the specific needs of the customer.
