

Catalogue: **Park & Playground Equipments**

Category: **Slides**

Code: **50030015**

Description:

Slide tunnel, for platform H130 cm, with 300 cm in length, with a 75 cm passage hole, all made with 4 polypropylene modules joined together with external screws protected by PVC plugs.

The internal joints are entirely rounded to ensure greater safety for the child. Additional drop-down modules (yellow element) can be inserted up to a maximum height of the 400 cm platform.

The elements can be red, yellow, green and blue, combinable with each other.
